

~ About Our Teacher ~

Debra Manos (a.k.a “Miss Debbie”) has been teaching and studying childhood development for the past 29 years.

“I firmly believe that a child’s most positive experiences are gained when the educators and parents work together to meet the child’s changing developmental needs. I find it a challenge and a joy to help parents and children understand their relationship and grow in a healthy, loving environment filled with exciting opportunities to explore their social, emotional, physical and cognitive world.”
